### Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

An urgent need for immediately obtaining facilities for care of Palm Beach County's mentally ill, was voiced before the county commission this week by Dr. W. E. Van Landingham, county welfare director.

He told the commission the situation in the county has reached an emergency stage and that it is necessary to confine the mentally ill to the county jail to await entrance into hospitals.

Dr. Van Landingham said the Hollywood Hospital and the Miami Retreat are unable to accommodate any more patients and as a result the county has no choice except to hold the mentally ill in the jail until they can be admitted.

"We are being criticized for holding these people in jail," Dr. Van Landingham told the commission. He added no other facilities are available.

The board, at the suggestion of Chairman Paul Rardin, authorized a committee be named to try and find temporary facilities for these patients, outside the jail.

The committee members are Dr. Van Landingham, Commissioner Kenneth Foster and Rev. Andrew Blackwood.

The committee was also authorized to investigate a request made

earlier by Rev. Blackwood, that additional facilities be found to house aged indigents. The minister said the county hospital is full and that patients are being admitted to general hospitals for care.

Rev. Blackwood suggested that a building at the county home, which was formerly used as a children's home, be converted for use by the aged — on a basis with only limited funds being spent for remodeling.

### Pahokee Rotarians Near Mrs. Thiebaud

Mrs. Betty Thiebaud of Belle Glade was guest speaker at last week's luncheon meeting of the Pahokee Rotary Club. Introduced by Joe Thompson, program chairman, she spoke on "The Life of Stephen Foster."

W. K. Aldridge, vice president, presided in the absence of President C. E. Williams.

### Post Master Needs To Know What Is In Your Package

Are you one of the few who take offense at being asked what your parcels contain when they are presented at the post office for mailing?

"If so, please believe that the receiving clerk is not prying into your private affairs," says Postmaster Edythe Smith. She is only doing her duty."

Some of the things that people would like to transport through the mails pose a natural hazard to postal personnel and to other mail matter. For example, firearms, explosives, radio-active materials, reptiles, chemicals, and liquor are capable of inflicting serious damage, and so are unmailable except where special permission is granted. Packages of items that are unquestionably mailable sometimes contain written matter without its presence being shown through proper endorsement. "This call cause delay in delivery, unnecessary inconvenience and expense, or even confiscation of the parcel," says Postmaster Smith.

### Town Team Lost To Stuart Netters

The Pahokee town team ended its season with a 9-2 record after losing a 89-56 decision to Stuart, who is responsible for both defeats. Pahokee's 1-2 scoring punch of Alvy Early and Thurman Kemp was off, and manged only 13 points between them. They averaged 51 between them for the season. Thurman Kemp hit for 188 in 8 games for a 23.5 average and Alvy Early had 199 points in 9 games for a 22.2 average.

### Sheriff's Group Draws Kind Words

Sheriff John Kirk and his deputies drew a note of appreciation from County Commission Chairman Paul Rardin this week.

Rardin said the sheriff's department is doing an outstanding job of law enforcement for Palm Beach County.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,867.90 . . . in 9 years and 8 months, you'll have \$2,860.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4443.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,317.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 6 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

## Hugh Brown Runs For Sheriff's Job

Hugh Brown, Chief of Police in Boca Raton for the past 23 years, has announced his candidacy for the office of Sheriff of Palm Beach County in the Democratic primary May 3rd.

When asked why he chose to run for the top law enforcement office in the county Brown replied: "In view of the tremendous cost of operating the present Sheriff's Department to the taxpayers of Palm Beach County I believe the time has come for administrative ability and efficiency to be applied to this branch of County government."

Brown is a Florida native, being born in Nassau County. More than half of his life has been devoted to law enforcement work. His development of the Boca Raton Police force into an efficient organization is attested by the fact this community has one of the lowest crime rates, per capita, of any community in the nation.

Chief Brown is proud of the fact that every man in his department has undergone special training, included in this group is a graduate of Northwestern University's Traffic School, a graduate of the F. B. I. National Academy in Washington, D. C. Several officers have certificates from the Federal Bureau of Investigation short course, also three Miami Police Academy graduates, and Florida Police Academy graduates.

A modern police-radio system is operated in conjunction with a fleet of cars and coverage of 150 miles of streets in on a 24 hour patrol schedule.

In making this announcement Chief Brown declared: "If elected I pledge honest, efficient and courteous law enforcement to the people of Palm Beach County."

During the tenure of Chief

Brown, Boca Raton has grown from a community of 784 persons to a population of over 9,500 individuals. His department has kept pace with the growth, increasing from two men in 1937 to 18 officers today.

When a U. S. Air Base functioned in Boca Raton in the early 1940's Brown worked in cooperation with a large Air Police department and was complimented by inspecting generals for aid and assistance to the Air Force.

Brown is married and has three children, a daughter Mrs. William D. Furr, who is assistant county home demonstration agent in Ocala, a son William David, presently serving as a Lt. Junior grade in the United States Navy in the Pacific. At home is a daughter, Ellen, age 13.

Police work has placed Chief Brown in close association with many national and state as well as local organizations. He is a member of the International Association of Police Chiefs, Police Chiefs and Sheriffs Association, Florida Peace Officers Association, Fraternal Order of Police, in Lake Worth, Florida. Police Chiefs As-

sociation, and the Tri-County (Dade, Broward, Palm Beach) Intelligence Unit.
